Suggestions:

- Creating more student clubs that bring awareness to the SDGs – at the elementary & secondary levels
- Allow students to engage with partners to support and protect the rivers around us – lots of opportunity with salmon, shore clean-up etc.
- Create or provide larger outdoor learning areas so all schools within the district can have a space – more garden areas, outdoor classrooms etc.
- Collect clothing donations and host a 'shop' at schools once a week for students who may need items – my practicum school called it the 'store' and every Tuesday before and after school it was open to students to take anything they needed
- Allow students to do larger/further inquiry projects into the SDGs
